

What is a Business Continuity Plan?

A business continuity plan details how a business will continue operating and serving its customers, even in the face of a dramatic event like a natural disaster, major IT failure, or a cyberattack. The end goal is to preserve a company's financial viability, market position, reputation, and customers even in the face of a crisis.

A free information and training workshop is happening in Dodge City for Continuity of Operations Planning (COOP). This informational time can help equip you to deal with emergencies and how you can keep your business running in spite of a local disaster. Guest Speaker Chuck Magaha (Emergency Manager for Leavenworth County, Kansas) will guide this valuable discussion.

June 5th 11:30am—1:00pm

Location:

101 W. Wyatt Earp Blvd.

RSVP to:

EManagement@fordcounty.net
